Dear Customer!

We have designed various signature formats to assist you in perfecting your signature and using it in any situation. These formats include:

- **Original:** This is a standard-sized signature that can be used in 80% of cases.
- **Small:** A miniature signature, suitable for smaller fields.
- **Large:** A bigger signature, ideal for greeting cards and formal documents.
- **Practice List A:** This sheet helps you to practice writing your signature in any size without the aid of an outline.
- **Practice List B:** This sheet allows you to simulate the actual usage of the three signature sizes on different document formats.

Please print the required number of each sheet.

We suggest printing more of the Original and Practice List A sheets.

Enjoy mastering your signature!
